Attorney/GAL:

Name: Jose Garcia

DOB: unknown

Relationship: alleged father of Abe Employer/School: unknown Address: unknown

Phone: unknown

Attorney/GAL:

#### FAMILY ASSESSMENT UPDATE:

Bea Abrams was arrested and charged with DUI and child abuse on 7/17/2018. Ms. Abrams was driving with her son Abe (15 months) and had a BAC of .214. She is scheduled to appear for a bond hearing later today but reports she has no where to go if she gets out. Ms. Abrams older child, Kaley (13) was staying with her Grandmother Denise Corleone on the day of the incident and has remained in her care since that time. Abe was placed in foster care on 7/15/18.

Intake Caseworker, Stephanie Miller, contacted Mother at the Weld County Jail. She reported her parents in Wyoming are alcoholics and struggle with domestic violence. She has no siblings. She has one Aunt in Oklahoma that she wants considered for placement of Abe. CW Miller has started ICPC paperwork. Mother stated that she was never in a relationship with Abe's Father, Jose Garcia, and he has never been involved in Abe's life. She believes he fled to Mexico to escape some gang issues and she never knew his family. CW Miller was able to contact Kaley's father, Carlos Corleone, with a phone number given by his mother. He is working in Pueblo on an oil rig and works 14 days on, 5 days off. He has a current warrant in Denver for Driving under restraint and he states he will turn himself in on his next day off. He has not seen his daughter in 5 years though his mom keeps him updated about her life. He wants to start visits with her after he clears his warrant. He has been paying his child support since he got out through Weld County case 07JV333

Mother is scheduled for a substance abuse assessment in the jail on Friday. Mother is requesting visits with her children while she is in jail because she doesn't plan to bond out until she has a place to go. She and the children were staying with a friend in Greeley but Mother doesn't think it is a good environment for her and the kids. She has been trying to find a place since she moved back from Wyoming with her parents. She and the kids lived in Wyoming for only 6 weeks. Prior to that they lived in Greeley, CO before Mother lost her job. Mother has a cosmetology license and experience in hair and nail salons.

CW Miller met with Kaley at her grandmothers home. Kaley plays soccer and enjoys cooking with her grandma. She has a close relationship with her Grandmother and her father's family. She is up to date on medical and dental needs. The school reported that Kaley has better attendance when she is with her Grandmother and tries hard in school. Grandmother reports that she will be able to transport Kaley to school to keep her with her classmates and is happy to care for Kaley as long as necessary.

Information from GAL's initial home visits:

Kaley:

- Stays with Grandmother 2-3 times a week for most of her life, has contact with Aunts/Uncles/Cousins
- Father did some time for DV with his last girlfriend and left to Pueblo when he got out. Hasn't been back because of the "drama" here.
- Grandmother says Kaley is very bright but struggles with school, she studies and tries to do her homework but often gets Fs and Ds. Mother was supposed to go to some meetings with school but Grandma doesn't know if she did. Kaley is getting more and more frustrated with school and cries a lot.
- Kaley is close to her mom but doesn't like living with her – she never gets to school on time with her mom and doesn't like when her mom drinks. Kaley gets really sad and sometimes can't get out of bed when she is with her mom. She started seeing a therapist she really likes, Kim, but hasn't been able to see her since they moved back. She hated it at her Gran's house in Wyoming, it was smelly and they always fought, everyone drank all the time and she didn't get to see her Grandma Denise. She doesn't want to see her Dad either - he doesn't care about me so I don't care about him.
- Kaley is really worried about her brother and hasn't seen him since two days before her Mom's arrest. Doesn't understand why they can't be together.
- Grandma Denise states that she would love to have Abe with her. Doesn't understand why he wasn't brought her. States she told the caseworker that she couldn't have him THAT NIGHT because she had family in town from Mexico and there was no room plus she would need to get some things for the baby like his formula and diapers. She has that now and shows me a space for the baby in her room with a pack and play.

Abe:

- Very happy baby, is walking but seems to fall a lot – foster mom and I talk about his balance and he may need an OT/PT assessment. He is especially fond of their 13 years old daughter... he follows her everywhere. He is sleeping through the night but is terrified of the bath, they have had to wash him in the sink and are working towards making the bath fun with toys.
- The foster family is a potential adoptive family.
- Abe is behind on his shots, they have appointments to get him caught up over a three month period.
