

He loves me
He takes care of me
Someday we're gonna get married
We just need to get some money first
He needs me to do some things I'd rather not do
But it's just for a little while... so we can be together
At first, he just needed me to dance
But it's getting worse
He needs me to do more now
Sometimes he hurts me
He tells me I have to do what he says and that I can't leave
He says I can never leave, that I chose this,
And that I don't deserve anything better
He says no one will ever love me now because of the things I've done
Is he right?
Do I even have a choice?

YOU DO HAVE A CHOICE. THERE IS A WAY OUT.
YOU ARE SPECIAL AND VALUABLE.
