SECTION 6: ACTIONS THAT RESPONDED TO THE CURRENT OR IMPENDING DANGER

Based on an analysis of the Children/Youths' Vulnerabilities, Current or Impending Danger, AND Strengths/Protective Capacities, select one of the following:

- ☐ 1. No current or impending danger to the child/youth has been identified as part of this assessment.

-STOP HERE IF NO CURRENT/IMPENDING DANGER HAS BEEN IDENTIFIED-

- ☐ 2. Current or impending danger to the child/youth has been identified AND caregiver(s)' strengths/protective capacities or family actions DO CONTROL FOR all identified danger. The child/youth is determined to be SAFE.

Describe how the caregiver(s)' strengths and protective capacities mitigate the identified current or impending danger.

-STOP HERE IF CURRENT/IMPENDING DANGER IS CONTROLLED FOR-

- ☐ 3. Current or impending danger to the child/youth has been identified AND caregiver(s)' strengths/protective capacities or family actions DO NOT CONTROL FOR all identified danger. Further intervention is necessary to manage identified danger. The child/youth are determined to be IN CURRENT OR IMPENDING DANGER; proceed to Section 7: Safety Intervention Analysis.

SECTION 7: SAFETY INTERVENTION ANALYSIS

Per Volume 7. 104(B)(2), if the child is unsafe, the safety assessment, safety plan, or decision to initiate an out-of-home placement must be reviewed and approved by a supervisor as soon as possible and at most within twenty-four (24) hours.

- ☐ 1. A safety plan can reasonably be expected to control all danger to the child/youth and will be completed. If you select this option, proceed to Section 8: Safety Planning to outline the safety plan created with the family and its support network.
- ☐ 2. Human or Social Services custody is the only plan that sufficiently controls all danger to the child/youth. If you select this option, do not complete Section 8.

SECTION 8: SAFETY PLANNING (Complete this section only if you selected Checkbox 1 in Section 7.)

A safety plan shall be developed for all children in current or impending danger if an in-home safety plan can reasonably be expected to control for all identified dangers. All children in the household assessed to be in current or impending danger shall be included in one plan. Safety plans do not have to be developed if the Safety Intervention Analysis (Section 7) results in a decision that Human or Social Services custody is the only plan that is sufficient to control for all danger to the child/youth.

Safety plans are a voluntary agreement between the signing parties and do not impact a caregiver's parental rights. However, not adhering to a safety plan may impact the decision of the Safety Intervention Analysis (Section 7). Should court action be sought to control for the safety of the involved child(ren)/youth, caregivers will be provided with a Notice of Rights and Remedies for Families, also available at <https://sites.google.com/a/state.co.us/cdhs-dcw/for-professionals/forms>.

Safety plans shall include the following:

1. Identification of each family member and safety management provider who is participating in the plan:
2. Description of actions to be taken that address each specific current or impending danger, including frequency of each action and who is responsible for each action. These safety responses must have an immediate impact on controlling for identified current or impending dangers, be the least restrictive possible while still ensuring safety, and be readily accessible at the level required to ensure safety:
3. Caregiver acknowledgement of current or impending dangers and a willingness to participate in the safety plan:
4. Descriptive list of caseworker activities to oversee the safety plan:

Parents, caregivers, and others who are a part of a safety plan shall sign the safety plan and receive a copy. All signatures and paper forms shall be retained in the file.
